

Approved For Release 2002/06/14 : CIA-RDP71B00185A000100060134-9
UNITED STATES GOVERNMENT

SECRET

Memorandum

TO : C/SMS

DATE: 9 December 1964

FROM : DAD/S&D

SUBJECT: Comments on OEL 1179-64

Paragraph 1 is very good and is a big improvement over the initial draft. In fact the entire memorandum now looks pretty good.

Since the nature of the intercept technique is novel and new, I rather think that the classification should be TOP SECRET and could very well be included in the system.

I am not sure that George will not ask to have the last sentence deleted since this sentence concerns itself with SMS/OSI liaison and is a function that we should take for granted and not have to spell out.
